

Freestanding Cooker

OR90SCBGX1 stainless steel

Finishes

Brushed Stainless Steel

General Features

- ❖ 5 burner gas cooktop
- ❖ Four function oven
- ❖ Cast iron trivets.
- ❖ Triple ring wok burner
- ❖ Electronic ignition
- ❖ Door and cavity cooling system
- ❖ Storage compartment
- ❖ Two pane door
- ❖ LPG & natural gas compatible

Product Dimensions

- ❖ Overall depth of product 600mm
- ❖ Overall height 900 - 925mm
- ❖ Overall width of product 900mm

<u>FEATURES</u>	<u>BENEFITS</u>
ELBA Freestanding cookers are available in stainless steel finish	Stainless steel is a reflective, aesthetically pleasing finish that blends minimalist design with durability
Four Cooking functions – bake, fan bake, grill and fan grill	The range of cooking functions allows for a wide range of different types of food to be cooked to perfection
Generous 111L total Capacity	The generous capacity enables the user to cook greater quantities of food with ease. The shelf support racks uses as little space as possible within the cavity while providing a generous choice of shelving levels
Exceptionally durable cast iron trivets with rubber grommets provide a stable cooking surface, allowing for easy transfer of pots & pans	Cast iron trivets provide a safe cooking surface, as well as being durable, long lasting and easy to clean
Triple ring wok burners are powerful burners with an inner and outer burner head, which evenly distribute heat in three rings across the bottom of a wok or large pots & pans	Fast heat with even distribution, perfect for stir-frying and other dishes requiring a powerful heat
Freestanding ranges are equipped with a door and cavity cooling system. This is designed to minimise heat transfer and protect kitchen cabinetry by circulating cool air around the oven	Protects kitchen cabinetry and ensures the external surface of the door remains a safe temperature to touch
Electronic ignition – ergonomic controls automatically ignite the flame when the control knob is pushed down and turned around to its desired temperature	Igniting the gas Cooktop is easy and provides the user with accurate temperature control
The storage compartment provides the user a convenient space to store pots, pans & oven trays used in cooking. It is accessible through the pivoting lower panel	The storage compartment gives the user the extra storage space.

Wall Canopy Rangehood

Key Features

- ❖ Easy to reach controls at front of unit
- ❖ Number of fan speeds
- ❖ Dishwasher safe aluminium mesh filters
- ❖ Lighting

Dimensions

H 648-1068 x W 900 x D 480

Finishes

Brushed Stainless Steel

General Features

- ❖ Able to be recirculated
- ❖ Controls Soft touch buttons
- ❖ Easy to reach controls at front of unit
- ❖ Lighting 2 x 20W Halogen
- ❖ Performance Features
- ❖ Air movement M³/hr (max) 863
- ❖ Decibel rating (dBA) max 65
- ❖ Number of fan speeds 3
- ❖ Type of fan Centrifugal

Dimensions

- ❖ Overall height of product (mm) 1068
- ❖ Overall width of product (mm) 900
- ❖ Overall depth of product (mm) 480
- ❖ Max height of decorative chimney flue (mm) 1036
- ❖ Width of decorative chimney flue (mm) 225
- ❖ Depth of decorative chimney flue (mm) 200
- ❖ Height of control panel/handle 32
- ❖ Size of air outlet 150
